

HUNTING

Columbus—Patrick Clifford was killed at the plant of the Jeffries Manufacturing Company by a piece of lumber falling from a second story.

Iron production in Germany in the first quarter of 1901 is reported as 973,869 tons, an increase of 18.13% on 824,200 tons, a little over 1 per cent.

Wackenhimer has always been a Jones man. He was elected on the Jones ticket and the Mayor has done much for him. He is the Democratic candidate for common pleas judge, and politicians figure that Jones will have more than \$5 worth of fun with him before the election.

PHILADELPHIA, July 17.—A boa constrictor is loose in Media and that little town is full of excitement. Terror stricken inhabitants are afraid to cross their door sills at night. The snake was owned by John Stillwagon and was being kept as a pet. The snake was about nine feet long, brightly colored and said to be a beautiful specimen of the reptilian family. The reptile has been missing for five days.

GENERAL SHERWOOD.

Gen. Dick's emissaries are taking liberties with Gen. I. R. Sherwood's name, for which they have no authority whatever from that sterling Democrat. Having an intimate acquaintance with the man, we will gamble the last dollar on his democracy and on his loyalty to the ticket. He will be found in line with the leaders just as he has been for a quarter of a century, with his faithful sword drawn to let daylight through the carcass of Han- nism. The use of his name in connection with bolters is an insult to a good Democrat.—Toledo Bee.

General Sherwood very promptly and emphatically stopped the use of his name in any connection with the so-called third party movement. As telegraphed to the press from Toledo, General Sherwood says:

"It is all news to me. I know nothing of any such movement beyond the stuff I see in the papers. I have said time and again that I am no candidate for any office and what is the use in harping on my name. I know of no meeting of Bryan Democrats. I believe there is nothing at all but talk. I know I am not in on it."

Grosvenor's Latest Handspring.

(Detroit Tribune.)

General Grosvenor of Ohio went into a frenzy over the disfranchisement of colored voters in the southern states and indorsed the government's treatment of the brown men of the "colonies" in the same breath in his Fourth of July speech. General Grosvenor as a mental acrobat has no superior in the entire circus.

The New Irrepressible Conflict.

(Pittsburg Post.)

The importance of the conflict between organized capital and organized labor in the iron and steel interests, is by no means underrated by the people of the country. It is a preface to the great battles of the future between labor and capital. The consolidation of labor is declared to be the inevitable result of the consolidation of capital. This was not thought of as a probable result when the formation of trusts and the creation of the trust of trusts, reaching its climax in the United States Steel Corporation, started in this country. Congress and Legislatures have passed laws against trusts, and attempts have been made to enforce them, but the laws to the contrary the trusts have kept on increasing in numbers and power, reaching their climax, as stated, in a combination of trusts. No one now appears to believe "the trust evil," so vigorously combated by the platform and statesmen of all parties, can be stayed by the law-making power. It is hardly too much to say that the trusts rule Congress, the Legislatures, the executive branch of government, and have a powerful representation and influence in the judiciary. If not, why have all efforts to repress them failed? The anti-trust law of 1890, claimed by the Republican party as the grandest of its achievements, is of no more account than the Blue Laws of 1794. It is ridiculed to a greater extent than it is obeyed.

It would be strange indeed if these lessons of the benefits and power of organization of effort and capital should not become a greater teacher of the opposing forces of labor. We see that it has. The trust has been the instructor of labor, and of almost every branch of human endeavor, in the shop, the mine, the mill, the railroad, the professions, that combination is the great lever to move and control the business and industrial world. This is the age of combination. It is much more difficult for labor, with its hundreds of thousands, to combine than for capital, directed by a few score of exceptionally able and brilliant minds. At the start some urged that the trusts would in time become the great promoters of socialism. Whether this is to be realized or not is a question of the future; but in the light of current developments it is clear as the noonday sun that the trusts have become the great promoter and incentive to labor organization. Labor has been going to school in a quiet way, and the trust magnates have been its teachers. Never before has there been such a drift to labor organization as we now see in this country. Labor reasons that it is all that is left for it. Its organization, we repeat, is much more difficult than of capital. But it must not be forgotten that labor has a reserve power that is more potential than dollars, once it learns how to use it. That is the vote. Organization will instruct it in that field as well as others. We are entering on a new era, financial, industrial and political. What will the harvest be?

OHIO DAY PROGRAM

EXERCISES IN HONOR OF THE
BUCKEYE STATE

At Buffalo Exposition—Oratory, Music
and Fireworks—Nash, Foraker
and Hanna to Speak.

Buffalo, July 17.—The program of exercises for Ohio day, July 18, at the Temple of Music, was announced by the Ohio Pan-American commissioners. Governor Nash and his staff will be escorted to the exposition grounds in the morning by the Eighth Ohio regiment. Arriving there the following program will be carried out with Hon. Daniel J. Ryan of Columbus as president of the day: Opening prayer, Bishop T. B. Arnett, Wilberforce; address of welcome, Director General William I. Buchanan; response and dedicatory address, Governor George K. Nash, Columbus; address of acceptance, Hon. John G. Milburn; address, Hon. Emmett Tompkins, Columbus; address, Hon. J. B. Foraker, Cincinnati; address, "Ohio, the First Child of the Northwest," Hon. Charles W. Baker, Cincinnati; address, "The Commercial Relations of the American Continent," Hon. Marcus A. Hanna, Cleveland. In the afternoon there will be a musical and in the evening a grand fireworks display.

Fireman Killed in a Wreck.
Gallipolis, O., July 17.—S. L. Socia, fireman of Nelsonville, O., was killed in a wreck caused by a collision of the Hocking Valley pay train with a freight train. Paymaster D. E. Lerch and several others were injured.

Got Beyond Their Depth.
Youngstown, O., July 17.—Ethel Fitch and Annie Dunn, two young girls, while in the river with some young companions got beyond their depth and were drowned. The bodies were recovered.

Married His Stepmother.
Steubenville, O., July 17.—James F. Worthington, 24, married Mrs. Josie Worthington, 22, widow of his father, who died recently. The bride's son becomes the stepson of his half-brother.

Jail Delivery at Springfield.
Springfield, O., July 17.—Rudolph Gretch, arrested here for loitering under the name of John Davis, was identified as the man who criminally assaulted 9-year-old Martha Botfish of Dayton. Chief Whitaker of Dayton came to get his prisoner only to find that Gretch had broken the bars of the city prison. He escaped and 12 other prisoners also got away.

Raked the Tax Valuation.
Cleveland, July 17.—The taxable value of the Little Consolidated street railway, of which Senator Hanna is president, has been increased by the board of equalization from \$555,000 to \$609,000. The majority of the board consists of members appointed by Mayor Johnson. It is said the reapportionment will be contested in the courts.

Volume of Shakespeare.
London, July 17.—A copy of the first folio edition of Shakespeare, printed in 1623, was sold at auction for £1,720, which is the record price for copies of this edition.

National Union in Session.
Saratoga, N. Y., July 17.—The senate of the National union, of which W. L. Wild of Akron, O., is president, is holding its annual session here.

Cleveland Negroes Offended.
Cleveland, July 17.—Cleveland negroes are angry over what they consider an attempt of the citizens' general committee in charge of the Grand Army encampment to draw the color line. The trouble arises because a separate committee of 12 representative negroes of this city has been appointed to entertain the visiting negro veterans during the annual encampment next September. The attempt to make the negro veterans a separate part of the encampment are resented. Those who have been named as this committee will refuse to serve.

Destructive Hailstorm.
Muskegon, I. T., July 17.—A severe hail storm three miles north of Muskegon killed some stock and completely destroyed crops for a considerable distance over a stretch a mile wide. Heavy rains fell over the Creek and Cherokee nations, generally saving the crops.

Warm in West Virginia.
Huntington, W. Va., July 17.—The thermometer reached 101 degrees Tuesday. A large number of prostrations among farmers and mill men were reported. Will Cartwright and Homer Gooding of Guyan will die.

Stranger Sunk.

ADJUDGED INSANE

But Was Finally Released—Oliver Parr's Troubles With His Wife at Columbus.

Columbus, O., July 17.—Oliver M. Parr, a well known traveling salesman of this city, had a most exciting experience on Monday and Tuesday.

Owing to a disagreement with his wife, in which he alleges that she has not always treated him right, they have been living apart. Recently their disagreement increased, owing to Parr's claim to certain property.

Monday Parr was at work for his house when he was arrested and taken before Probate Judge Galloway on a lunacy warrant.

Several prominent physicians of this city were called to see him, and he was pronounced insane and ordered committed to the state asylum. During the night he was held in the county jail.

Yesterday he managed to get word to his attorney, C. D. Saviers, who at once went to the county jail. Saviers was convinced that Parr was not insane and insisted that Judge Galloway suspend the operation of the lunacy warrant until the fact could be proved. This was done, and by the testimony of Drs. Deutsche and Carpenter, both noted authorities on insanity, Parr was pronounced entirely sane, and ordered released at once.

Parr claims that his wife took the action she did in order to get rid of him and to get the use of the estate. He will possibly bring suit for damages against those interested in committing him to the asylum. In addition it is hinted that a suit of a different character may be brought against the physicians who assisted the wife in declaring him insane, but of this his attorney, Mr. Saviers, will not speak at present.

Mr. Parr whose troubles are mentioned in the foregoing article from Columbus is a former Newark man, son of Oliver Parr, deceased, former well known Newark man. Mr. Parr comes to Newark frequently.

BOND SALE.

Office of the City Clerk, City of Newark, Ohio.

The City of Newark, Ohio, through the Finance Committee of its City Council, by authority of an ordinance entitled, "An ordinance to issue refunding bonds," passed the 1st day of July, 1901, invites sealed proposals at the office of the City Clerk of said city, until 2 o'clock noon.

THURSDAY, AUGUST 15, 1901, for the purchase, with accrued interest, of twenty-five bonds, each for the sum of One Thousand Dollars, and each bearing interest semi-annually. Said bonds to mature as follows: Four bonds two years from date, four bonds in three years from date, three bonds in six years from date, and four bonds in seven years from date. Four bonds in eight years from date, four bonds in nine years from date, and three bonds ten years from date. Said bonds are issued in pursuance of the Statutes of Ohio, and said ordinance passed on the 1st day of July, 1901: the same being an ordinance to provide for the issuing of bonds to refund Twenty-five Thousand Dollars of bonds, falling due on the 1st day of August, 1901.

Bidders will be required to state in writing and in figures the gross amount they will pay for the bonds bid for, besides the accrued interest at date of delivery. All bids must be unconditional, and no bid will be accepted for less than the par value of the bonds bid for, and the accrued interest at date of delivery.

Bidders will be required to deposit, with each bid, Five Hundred Dollars, or a certified check in some bank for that sum, as a guarantee of good faith, and that the bid so made if successful, will be fulfilled in accordance with the terms thereof, and will be returned to the successful bidder, and the requirements of the law, and the ordinance.

All money or certified checks will be returned to unsuccessful bidders. No bid will be received unless accompanied by the money or certified check as aforesaid.

The City Clerk reserves the right to reject any or all bids, and to accept any proposal within six days after opening the bids. Proposals must be sealed, and endorsed, bids for Refunding Bonds, and the names of the bidder, and addressed to the City Clerk of the City of Newark, Ohio.

LIVE WIRE

Terribly Injured Three Men in Succession at Akron—Were on Different Poles.

Akron, O., July 17.—One after another a live wire terribly injured three men who were painting telephone poles yesterday. Charles Hull, of Mt. Vernon, a Central Union Telephone Company employee, was first to come in contact with the wire. The shock caused the brace strap which held him to the top of the pole to break, and he fell 40 feet to the ground. His left arm hip and several ribs were broken, and internal injuries may cause his death.

Five minutes later Alvin Shiller, of this city, who was at work on the next pole, touched the wire. He was terribly burned, and becoming unconscious hung like a block of wood in his straps before he was taken down. He will recover.

Samuel Landis also of this city, was less seriously injured on the very next pole an hour later. He managed to climb down to the ground, but fell fainting as he reached the earth.

OBITUARY.

In memory of Brother Hamilton Irwin, deceased. Mr. Irwin was born in Franklin township, Licking county, Ohio, January 16, 1819, and died July 3, 1901, aged 84 years, 5 months and 7 days. He was married to Catharine Sigler March 27, 1839. To this union were born nine children, 5 boys and 4 girls. His wife preceded him to the better world 24 years ago. Three of his children have also passed to their reward, John Sigler Irwin died in defense of his country, September 9, 1863; Sarah Alice died January 17, 1864; Jacob Leroy, December December 19, 1869. Those left to mourn are Washington of Lawrence, Kan., Robert Finley of Toronto, Kan., Henry Sturgess of Franklin township. The girls are Rachel V. Courson, who resides on the old homestead where the deceased father had lived for more than sixty years. The other daughters are Cordelia, wife of T. R. Wilson of this city, and Catharine, wife of W. L. Motherspaw. There are also thirteen grandchildren living, and five great-grand children. The deceased spent all the years of his life in Licking county. He knew the county when it was thinly settled, and Newark when it was but a village. He united with the Methodist Episcopal church in his 15th year. From the hour of his conversion he took great interest in the church, a member for 66 years, a steward for more than 50 years. He was faithful to the church, looking after its best interest at home and seldom failed to attend each quarterly meeting of the circuit until failing health and the burden of years were upon him. He braved the storms of winter and endured the heat of summer that the church might be served and God glorified. He esteemed it a great privilege as well as pleasure to attend the services of the church. His home was always open to the poor and people. All knew, whether young or old, that a cordial welcome awaited them when they visited him. His was the pastor's home. Brother Irwin loved the church and was loyal and true to the ministry. He never grew old. Tho' feeble in body his was a faithful spirit. All who knew him felt they had a friend in Uncle Ham. His physical strength had been giving way for some months, yet he fought bravely for life, not that he feared death, or was unprepared to go, but that spirit of his youth gave him a reason to live. He was ready when the summons came. By his pastor,

RIGHTS OF WAY

From Hebron to Buckeye Lake Secured and All Pending Condemnation Suits Settled.

On Tuesday the Columbus, Buckeye Lake and Newark Traction Company secured rights of way from the farmers from Hebron to a point near Buckeye Lake, and all pending suits have been settled.

Track has been laid on Locust street as far east as Sixth street and the street is torn up as far east as Fourth street. The gang is working west of the city and is making rapid headway, and the entire track from Hebron to Newark will soon be down.

Work is progressing rapidly on the Columbus end of the line. The company has a big force of men at work and is rushing the construction as much as possible.

New Game Law.

The State Sportsmen's Protective association has framed a new law which will be submitted to the incoming legislature and which will receive quite a bit of attention from sportsmen of this city. The obnoxious law passed by the legislature has practically killed hunting in Ohio. Sportsmen all over the state are urged to become members of the association and the membership fees are to be used in pushing along the new bill.

The new law if passed, will require every sportsman to take out a license to fish or hunt and he must have it in his possession or be liable to arrest.

The new bill provides that Mongolian and English or ring-neck pheasants and quail can be killed between November 1 and December 15. Woodcock are protected during the year except between July 4 and December 15. Squirrel, rabbit, ruffed grouse, prairie chicken, rail birds and kilder are killed between September 1 and December 15. Wild duck and mud hens can be shot between September 1 and April 10.

A swivel or punt gun is barred in the hunting of water fowl. The use of teamboats, naphtha launches, electric launches and all other boats but a common rowboat are prohibited. Owners of land where hunters trespass are rigidly protected. Wild pigeons are also protected.

A hunter's license fee will be \$1.25 the money to be paid to the county court. The money is to be used in prosecuting violators and protecting game.

The killing of all song and plumage birds is prohibited. Robins and bluejays may be destroyed by owners of premises if the birds are attacking the fruit. Birds' nests and eggs can be collected for scientific purposes when the collector is properly accredited and under bond.

There's MORE than grease in cod liver oil. There are blood-building, muscle-making, nerve-feeding principles that make it the best of all restoratives.

IT IS A PITY SO FEW WOMEN Are Entirely Free From Pelvic Catarrh.

Miss Anna Carsten, Clayton, Ill.

Miss Anna Carsten, Clayton, Ill., says: "Your Peruna did me so much good. I believe I should have been dead by this time had I not used it. I am feeling so well now. I have not taken any medicine for four or five months. I can cheerfully recommend Peruna to my friends."

Everywhere where the people, especially the women, are praising Peruna as a remedy for all forms of catarrhal difficulties.

Roxa Tyler, Vice President of the Illinois Woman's Alliance, writes from 910 East Sixtieth street, Chicago, Ill., the following:

"During the past year I gradually lost flesh and strength until I was unable to perform my work properly. I tried different remedies, and finally Peruna was suggested to me. It gave me new life and strength. I cannot speak too highly of it."

The extreme sensitiveness of the mucous lining of every organ of a woman's body is well known to physicians. This explains why, in part at least, so few women are entirely free from catarrh. Peruna cures catarrh wherever it is located.

Send for free catarrh book. Address Dr. Hartman, Columbus, Ohio.

TOM JOHNSON

Talks of Ohio Politics—Thinks Bryan is Not Familiar With Our State Issues.

Cleveland, O., July 17.—Mayor Tom L. Johnson was asked today what he thought of W. J. Bryan's editorial on the Ohio Democracy and he replied: "If Mr. Bryan were in Ohio and in ap osition to understand the situation I think he would agree with us Ohio Democrats that the state issues are more important to us than National issues this fall. I rather liked the editorial. We all like to hear from Mr. Bryan but right here in Ohio we can not agree that silver is the issue. We have an Ohio issue, a paramount issue—taxation—and it is a matter that is of vital importance to all people I do not see why it will not become an issue in other states."

THE RAILROADS

HOBO CAT RIDES TRUCKS OF A B. & O. TRAIN.

From Wheeling Through Newark on Towards Chicago—An Accident. Local Railway Notes.

When B. & O. passenger train No. 47 rolled into the station Monday evening, says the Mt. Vernon Republican-News, there was a passenger aboard who had not as much as given a "sou" for fare, although from the story of the trainmen, had ridden many miles. After all those whose destination was Mt. Vernon had alighted from the train and all noise had subsided, a faint "meow" was distinguishable from some invisible place about the train. A thorough search revealed to notice a secluded nook upon the truck of one of the cars a small but very agreeable looking specimen of the cat family. When an effort was made to rescue "Miss Pussy" from her precarious position, she crouched in the remotest portion of the truck and there let forth a pitiful wail that would have appealed to the heart of "Pat Crowe". Their efforts to rescue the "waif of the train" were in vain, and she was allowed to continue the journey unmolested. The train men say that they had heard the mewling of the cat at every stop after they had left Wheeling, W. Va.

Claims B. & O. Discriminates.

Baltimore, July 17.—A suit in which the Baltimore & Ohio railroad company charged with violating the interstate commerce law by discriminating against shippers, was filed in the United States court here yesterday by Myers & Houseman, dealers in live stock. The petition alleges that the complainants are damaged to the extent of \$25,000 to \$30,000 per annum by reason of being compelled to receive, house and feed their cattle at the United States yards in this city, alleging that officials of the railway company are interested in the stockyards and that discriminations are made against those who do not avail themselves of the use of those yards.

FRATERNAL FRIENDSHIP

Dr. King, of this City, Congratulates Col. Kilbourne and Receives Handsome Letter in Reply.

Dr. C. P. King of this city, a well known Republican, wrote his congratulations to Col. Kilbourne immediately after the latter's nomination for Governor by the Democratic State Convention. Dr. King and Col. Kilbourne were students and classmates at Kenyon college in the palmy days of that institution, and were close personal friends as well. Hence the Doctor was prompt to send his congratulations to the Colonel on the latter's nomination and tender him his support at the election. The Doctor will vote for Col. Kilbourne for personal, fraternal and other reasons, and so told him in his letter.

Dr. King hands the Advocate the following neat and handsome letter he received from the Colonel in reply: Columbus, O., July 15, 1901.

Dr. Charles P. King, Newark, Ohio.

My Dear Charlie:

You will, I know, make all due allowances for my delay in replying to your very kind note of the 11th inst. I have been so overwhelmed with telegrams and letters the last week that it has been impossible for me to keep up with them. Among the many letters I have received, however, none have been more pleasing to me than that from my old-class-mate and brother in D. K. E.

Hastily, yours very truly, JAMES KILBOURNE.

A Name Twice Made Famous, Now a Shining Mark for Imitators.

The name "Chase," twice made famous, is a shining mark for the unscrupulous to pounce upon and appropriate in order to foist upon the public their worthless preparations. These birds of prey, by using the name Chase, expect the public to be fooled into believing they are the medicines of Dr. A. W. Chase, who first became noted as the author of the world famous Dr. Chase's Recipe Book and family physician, and whose fame is now doubly increased by the wonderful success of his Nerve Pills, with Nerve, Brain and Blood troubles. They play upon the name Chase, but dare not use the initials "A. W."

They imitate, but dare not counterfeit the portrait and signature of Dr. A. W. Chase, which identifies the Nerve Pills now recognized as infallible for building up pale, weak, thin-blooded, nerve exhausted sufferers.

Who are nerve-tired and brain-weary. Who are easily exhausted. Who are wakeful—cannot sleep. Who have nervous headache.

They remove the cause of sleep impurities, securing refreshing sleep and impart strength.

They build up people who find their strength and vigor waning. They settle irritated nerves, replace languor and lassitude with energy and animation. Cure Nervous Dyspepsia.

CAUTION.—The protection to the public in securing the genuine and original Dr. A. W. Chase preparation is in seeing the portrait and signature of A. W. Chase, M. D., is on each box. These and these only are the genuine. Do not be satisfied with anything bearing the name "Chase" without the initials A. W. Chase, of Druggists or Dr. A. W. Chase, Medicines Co., Buffalo, N. Y.

One noticeable feature of the Sixth's camp is the absence of tent flooring. Col. Stanberry and the other officers do not think that tent floors are conducive to health, or to making soldiers of men. They believe that when a man is in camp he is "soldiering" in all that term implies.

At a conference of officers this morn-

implies, which of course includes that they are gentlemen.

The regimental band came from camp and gave a concert in the court house park which was greatly enjoyed by all who heard it. The band is justly considered one of the best military bands in Ohio.

Several officers and their ladies from the camp ground, came down and listened to the concert.

Col. Stanberry and all of his subordinate officers, wish the people of Newark to visit the camp and see it as it is. Dress parade and band concert every night.

This morning a detail of ten men from each company practiced on the rifle range.

One of the Newark Independent company's telephones has been placed in Adjutant Duffy's tent and comes in very handy.

Private Clarke of Co. A, met with a bad accident this morning. He had been detained for duty in the cook tent and while using a large butcher knife cut off part of the first finger of his right hand.

Private Webber of Co. D, who has been here with the advance in the hospital, having been overcome with the heat. His case is not serious.

Private Robinson of Co. I, who was taken ill on the trip to Newark last night with an attack of neuralgia of the heart, is sufficiently recovered this morning to return to duty.

Quite a party of ladies under the chaperonage of Mrs. Col Stanberry, are in camp, their tents being pitched in the grove, back of headquarters, and the following are among those present: Mrs. Col. Stanberry, Misses Stanberry, Mesdames Wachter, Squire, Stratton, Rydman, Howard, Watts, and Misses Andrews, Wheeler and Matthews, of Toledo, Mrs. A. L. Wolcott and Miss Reidel of Napoleon, Mrs. Bryant, Miss Bryant and Mrs. Stacey of Bloomdale, Mrs. Gerges and Miss Ella Krumb of Fremont, Mrs. Langel and daughter of Findlay, Mrs. Kieagloh and daughter Leona of Bryan.

The ladies were quite tired after their journey but are now resting up in a very comfortable location. They are greatly pleased with the grounds, several saying it was the prettiest place they had yet been with the regiment. Most of the ladies are wives and daughters of the officers.

Through the courtesy of Major L. W. Howard one of the most able and

and has made a great record for itself. It was organized in 1872 and has seen considerable service. It was on duty at Cincinnati, Wheeling Creek, Massillon, Maunday reservoir and other places in Ohio.

At the outbreak of the war with Spain the Sixth was one of the first regiments mustered into the United States service at Camp Bushnell. After wintering in 1898 in the south, they were part of the army of occupation of Cuba at Cienfuegos in January in 1899. The commanding officer then was Col. McMaken now commanding the First brigade O. N. G. The Sixth was the last volunteer regiment that had been in Cuba to be mustered out of the service. The present field and staff officers are as follows:

Colonel—S. B. Stanberry, Toledo
Lieut. Col.—E. S. Bryant, Bloomdale.

Major—Lloyd W. Howard, Toledo
Major—Chas. L. Langel, Bryan.
Major—M. C. Cox, Fremont.

Surgeon—William Watts, Toledo.
Asst. Surgeon—Alvin E. Snyder, Daniel W. Iford, Toledo; Henry Schoepfle.

Quartermaster—E. W. Rydman, Toledo.
Inspector rifle practice—Daniel H. James, Toledo.

Regimental Adjutant—Capt. Wm. Duffy.
Commissary—J. C. Unger, Toledo.
Frank H. Kieagloh, Bryan; Hiram Green, Fremont, and Newton E. Skinner, Toledo, battalion adjutants.

Chaplain—Thomas J. Hurlbaugh
Lieutenant Shaw went to Columbus this morning for the purpose of getting stationery and other needed supplies.

NEARBY TOWNS

PARAGRAPHS FROM PLACES IN VICINITY OF NEWARK.

Mt. Vernon—Fifteen hundred Baptists from all over Ohio attended the opening of the Baptist Assembly at Hiawatha Park. The Assembly will last ten days.

Mt. Vernon—The machinists' strike at the Cooper works here was settled here last night. Both sides made concessions. The men secure an increase in wages.

Zanesville—At a special meeting of the village council of Roseville, last night, Dr. J. W. Shaw, Mayor, tendered his resignation. Behind it is a unique story. The doctor formerly possessed convivial habits, and when the "wet" and "dry" contest came up last spring he was considered a friend of the liberal element. He made a promise to his wife however, that if he broke the total abstinence pledge while Mayor he would resign. He met with a party of congenial friends Monday evening, the pledge was forgotten, and as a result he called the Council together last night and quit the office.

Lancaster—Simon Noggie, a retired farmer, aged 86, after several months' illness, concluded that he wanted to die, and 40 days ago began fasting, saying he would starve himself to death. He ate practically nothing and died on the fortieth day. He became an infidel and demanded of the family that the customary funeral services be dispensed with in his case. He said he wanted no preaching, playing or singing over him. His wishes were complied with and only a verse of Scripture was read, and his body was laid in the grave. He leaves a comfortable estate.

VENOMOUS SNAKES STOP RAILROAD WORK.

Bozora, Pa., July 17—The prevalence of venomous snakes has stopped work on the new west and west end of the Pennsylvania and Ohio railroads. The railroads through the mountain forests are infested with snakes and the region is now swarming with them. The snakes are killing the men who are working on the road, and the men are afraid to go on the road.

The Amateur Detective.

"Get up, Dodson. There's been a murder!"

"Murder? Where?" I asked, leaping out of bed.

"In the hall above. Here is the proof." And he held up a piece of carpet with a bright red spot on it.

"You speak in riddles!"

"I discovered the evidence when I came home last night. As a result of two hours' investigation I have ascertained that the man who lodged in the room above had an enemy. They met last night by appointment, and drank together. The man up stairs drank too much or was drugged and was brought home by his enemy. This was all planned by the murderer, whose object was revenge.

"They came to the house in a cab drawn by a gray horse. It will be easy to find the cab, as the horse was blind in one eye, and three of the cab wheels had old and worn tires, while the fourth was a new one. The driver waited, but when the murderer went down stairs he dismissed the cab and walked away.

"The lodger up stairs was assisted into the house by the man who killed him. The latter took the key from the pocket of his victim and unlocked both doors. The murdered man was killed before he had a chance to make an outcry, but his blood is on the hands of his slayer.

"The murderer is more than 6 feet tall, is broad shouldered, wears a No. 10 boot."

"Great heavens, Tomes, did you see the men when they came in and see the murderer go away?"

"Nothing of the kind. He had been gone more than an hour when I got home, so the murderer must have been done between 1 and 2 o'clock."

"Then how do you know all you have told me?"

"Learned it all by a few careful observations. I discovered a red stain on the door of the lodger's room, showing that the murderer had blood on his hand. He attempted to wipe it off on the carpet and I cut out the spot for examination. The other facts I ascertained with the aid of a tape measure, and my general knowledge of the value of apparently unimportant details in such cases.

"In the first place, there was mud on the boots of the murderer, and he left footprints on the stoop and stairs. I measured those with a tape line and found that he wore a No. 10 boot. That means a man more than 6 feet tall, but, to confirm that, I measured his stride, which was 3 feet 4 inches.

"The points about the cab were easily ascertained. The street was not swept yesterday, and the imprint of the cab wheels was easy to trace. Three wheels made ruts in the dirt round at the edges, showing old and worn tires, while the off hind wheel left a square trace, indicating a new tire. On the lamppost I found a few short white horsehairs on one side. A gray horse had rubbed one side of his head on the post. Now a horse blind in one eye never rubs the blind side of his head against a post for fear of striking a projecting nail. As the hairs were all on one side of the post the horse must have been blind in one eye.

"I know that the murderer dismissed the cab when he went down stairs because it returned in the direction from which it came. If he had gone away in the vehicle, he would have ordered the driver to proceed in the opposite direction."

"Wonderful!" I exclaimed.

"My friends from the central office should be here very soon, and then we can get to work," said Tomes glancing at the clock.

By this time the servants and the landlady were astir. We heard a heavy step on the stairs going up past our door, and a few moments later the voice of the landlady rang out sharp and clear in a long drawn out yell, that sounded to my overstrained nerves like a scream of terror. Tomes smiled quietly. The cry of the woman was repeated, and, listen intently, I made out that she was calling, "Br-d-d-get!"

There was an answering shout from below, a rush of footsteps, and then the voice of the landlady broke out again.

"Bridget, whatever in the world stained this carpet? Here's all the new varnish ruined and the Brussels carpet spoiled entirely! Sure no lone widow ever had to stand such destruction!"

"Please, please, it was Master Willie spilled the red ink! Sure and I couldn't help it!"

Forclock Tomes smiled.

"Tidy'll know more very soon," he said in a quiet tone.

Just then the door was opened on the landing above, and a harsh voice cried out:

"See here, landlady! Bridget! Can't you let a fellow sleep! I'll get out of this! I'll give up my room!"

Forclock Tomes turned pale.

It was the voice of the lodger in the front hall bedroom above, and from far down the stairs came the answer of Bridget.

"Sure, sir, and it was Master Willie spilled the red ink!"

Homemade Ink.

A good ink is made in this way: Bruise half a pound of nutgalls and stand in one quart of water, shaking it now and then, for about four hours. Then add three ounces and a half of gum arabic and, when it is quite dissolved, three ounces of copperas. To prevent the ink from becoming moldy when kept add three or four drops of creosote. This gives a pleasantlike smell to the ink and does not corrode the pens as chloride of mercury would do.

STATE NEWS

HAPPENINGS IN ALL PARTS OF OHIO.

All Sorts of Buckeye News Items Boiled So that Only Real Facts Remain.

Bellefontaine—Linna M. Rea, who at the age of 20 created a great deal of surprise among her relatives and friends at West Mansfield by marrying Levi Rea, aged 81, and who at his death in June, 1900, inherited 200 acres of fine land and considerable money, has again been married to Ulysses S. Wilgus, aged 33, of Philadelphia, Penn. The young widow and Mr. Wilgus were schoolmates, and their marriage today was almost on the fourth anniversary of the bride's first marriage to Levi Rea.

Springfield—Ada Good was granted a divorce from John A. Good, the wealthy florist and ex-Mayor of the city, who became famous by being ousted from office under the Garfield law, and then being re-elected by a larger majority than he received the first time. The grounds were gross neglect of duty and extreme cruelty. The case was heard in chambers by Judge Mower two weeks ago. This is the first time in years that such a favor has been granted any one in this county. Mrs. Good is allowed \$7,500 alimony and awarded the household goods, etc., besides.

Massillon—Louise Young, aged 12, pleaded guilty to forgery and obtaining goods under false pretenses. The child forged an order for candy and peanuts. She will be sent to the reformatory.

Logan—A marriage was consummated through an advertisement at Rockbridge, this county, on last Sunday. The groom is Leon Montague, near Syracuse, N. Y., while the bride is the daughter of Al Wear of Rockbridge. One evening Miss Wear went into the country store and postoffice of the village, when one of the bystanders remarked to her in a joking manner that it was time for her to get a husband. She replied "All right." He replied that he would advertise for one for her, and the climax of the affair was that she secured a husband in the person of Mr. Montague. Out of a dozen who answered the advertisement she selected him on account of his beautiful chirography.

Columbus—The first quarterly bulletin showing the work of the various employment offices in the state, prepared under the direction of State Labor Commissioner M. D. Hatchford, has been issued. It shows the total population of Cincinnati, Cleveland, Columbus, Dayton and Toledo to be 1,505,465. Situations were wanted by 394,034 people in the five cities and positions were secured by 156,037.

Dayton—The Ohio State Pharmaceutical Association opened its twenty-third annual session with a large attendance. Mayor J. R. Lindemuth delivered an address of welcome. Business sessions began today.

Massillon—Fifty negroes have been brought here from Addyston, Ohio, to take the places of Hungarians at the works of the Massillon Iron and Steel Company. The Hungarians were discharged because they couldn't understand English.

Toledo—Mrs. Mortimer, whose husband was shot and killed by Philip La Blanche on July 4, gave testimony to clear La Blanche and place all blame on her dead husband. The judge scored the woman unmercifully.

Toledo—The Eighth regiment the "Pittsburgh Own" broke camp here last night and 600 of its men left for Buffalo, N. Y.

EVERETT GLASS WORKS.

Summit is sending for duty on account of sickness.

Chardon—Hill will attend the Eals Camp at Mansfield next week.

Joan Wray has returned to work, after a two week's vacation.

Wm. Howor has been unable to be at his post of duty, owing to sickness.

After visiting friends here for several days, Irwin Warthen has returned to his home at St. Louisville.

Fredericktown—As Abraham Russell was going home, he was attacked with heart trouble and fell to the ground, striking his head on a tree. He was unconscious for some time. He has recovered so to be able to sit up.

ing it was thought best to move the guard tents from their present location, which is terribly hot and no shade, so that the men would be near some shade. One relief of the guard is always in the tents.

Those who have visited the camp from Newark are loud in their praises of the looks and actions of the men of Col. Stanberry's regiment. They have the bearing of soldiers in all that term

popular officers in the regiment the Advocate is today enabled to reproduce fine pictures of some of the officers. These are made from photographs, the ones used by Major Howard in his souvenir edition of the history of the Sixth regiment. Other cuts will appear in succeeding issues of the Advocate.

and has made a great record for itself. It was organized in 1872 and has seen considerable service. It was on duty at Cincinnati, Wheeling Creek, Massillon, Maunday reservoir and other places in Ohio.

The Skin AN INDEX TO THE BLOOD

Millions of little glands or tubes connect the blood with the skin, and through these small drain pipes perspiration passes out, carrying with it the impurities that are thrown off by the blood. Should the pores of the skin be entirely closed for even a brief space of time, and the poisonous matter forced back into the circulation, instant death would result. In addition to the sweat glands, the skin is provided with certain others which pour out upon it an oily substance, keeping the skin pliable and soft and protecting it from heat and cold. The blood and skin are so closely related that whatever affects one seriously interferes with the functions of the other. Not only health, but life itself, depends upon perfect harmony between the blood and skin. When, therefore, the blood becomes poisoned from any cause, it quickly manifests itself upon the skin in the form of sores and ulcers, pimples and various eruptive diseases. By the character of the sore we are enabled to determine the nature of the poison or humor in the blood, as every disease originating in the blood has its own peculiar sore or pimple. The skin is not only affected by the poisons generated in the system, but poisons from without enter through the open glands or pores and quickly infect the blood. Mercury rubbed upon the skin will produce Rheumatism, and Poison Oak and Ivy and other wild plants gain easy access to the blood through the skin. As so-called skin diseases originate in the blood, the application of powders, soaps and washes can do no permanent good, but often do immense damage by closing up the outlet to these little tubes and interfering with the natural action of the skin. The treatment must begin with the blood, and the acid or other poisons antidoted or neutralized. S. S. S. does this and purifies the circulation, builds up the blood and flushes the little glands or pores with pure, new blood, and restores healthy action to the skin. The use of cosmetics never yet brought health and beauty to a rough, red, pimply skin or sallow complexion. What is needed is rich, pure blood, such as S. S. S. makes. It not only relieves you of all disfiguring blackheads, blotches and irritating, itching eruptions, but improves your general health. S. S. S. contains no mercury, potash, arsenic or other mineral, but is a purely vegetable remedy and the safest and best in all blood and skin troubles. Write our physicians for advice or information; they have made a study of blood and skin diseases, and you can have the best medical advice without cost. Book on Blood and Skin Diseases free.

CITY TEACHERS

Who Received Over 1000 Votes—County Teachers Who Received Over 500 Votes.

A good many people who voted at Roe Emerson's prize contest for a trip to the Pan American Exposition, for the most popular city and country teacher, have been wondering how the contestants stood, outside of the winners. Through the courtesy of Miss Williams of the Emerson store, the Advocate prints the following list of the contestants, including the winners. The first list embraces the city teachers who received over 100 votes and the second list embraces the country teachers who received over 500 votes. Instead of printing the number of votes that each teacher received, the names in each case are printed in the order of the total amount of votes each one received. The list is as follows:

City teachers receiving over 1000 votes:

Miss Minnie Evans, Miss Carrie Kirby, Miss Gertrude Avery, Miss Kate Murphy, Miss Ida Wiegand, Miss Dora Brennstuhl, Miss Anna Stelzer, Miss Grace Williams, Miss Kilpatrick, Miss Mathilde Wallace, Miss Cora Haughey, Miss Clara Alexander, Miss Cora Henry

County teachers receiving over 500 votes:

Mr. W. L. Atwell, Miss McFadden, Miss Natella Wilson, Mr. Frank E. Kirke, Miss Flora Hoover, Mr. Frank Householder, Mr. Arthur Vermillion, Miss Gertrude Tippet, Miss Retta Derolph, Miss Flavia Hartshorn, Miss Iva Meredith, Mr. E. O. Vermillion.

THE CROPS

Bulletin for the Week—Wheat Nearly All Harvested—There are Few Good Yields.

The weekly crop bulletin for the week ending Monday, July 15, gives the subjoined general summary:

The week has been clear and comparatively cool, with little or no rain fall. It has been unusually favorable for haying and harvesting and the time has been well improved. Rain is badly needed in southwestern counties.

The figures following the corn and wheat region stations show amount of precipitations in inches and hundredths for the week ending at 7 a. m., July 15: Bellefontaine 0.15; Chillicothe 0.05; Columbus 1.15; Dayton trace; Parkersburg, 0.06; Pomeroy, trace; Somerset, 0.22.

Pastures are drying up badly in the southwest. Much hay has been harvested in splendid condition. The crop is generally good. Oats are ripening and the prospect is generally good; there is some rust and smut.

Wheat is mostly harvested and threshing is under way in many sections. The reports of good yields are few, while many correspondents state that the yield and quality are both poor. The most favorable reports are in the extreme north.

Corn has made a good growth. It is needing rain badly in the south, and there are many complaints of damage by chinch bugs in west central and southwestern counties.

Potatoes have been unfavorably affected by the weather. Rain is needed in many districts.

Garden crops are fairly good. Tobacco is needing rain in southwestern counties and the reports are for only a fair growth.

Peaches are ripening in the south and a large crop is in prospect. There are but few reports of even a fair apple crop. Blackberries are needing rain. Grapes are rotting some in the south.

GREATER THAN EVER.

Ohio's Agricultural and Industrial Exposition.

AT COLUMBUS AUG. 26 TO SEPT. 7.

With Added Glory the Exhibition Takes the Place of the Annual State Fair—An Event of Great Magnitude and of Vital Importance to All Ohioans—Program and Features of Special Days.

The story of the Ohio State Fair since it began, fifty years ago, in two tents and two open sheds, reads like the history of the state. As Ohio in this last fifty years forced herself to the forefront in the sisterhood of states, so the State Fair has steadily grown from its humble beginnings to be first and best of all state exhibitions.

The two weeks covering the period from August 26 to September 7, all eyes and attention in Ohio will be directed toward Columbus and the grand Industrial Exposition of the state that will be then and there in progress, preparations for which have been earnestly going forward for several years past. Travel to this great central

mecca of industry, during its progress, will be from all directions, from every city, town and hamlet in Ohio, and over every railway line. No attraction anywhere will be greater to Ohio people than this Exposition, which will represent in its completeness every industry for which the state is noted, and all the latest devices and inventions now interesting the people, as applied to their arts. This Ohio Exposition, conducted in the sole interest of the citizens of the state and the improvement of their industries, will excel in one very important and pleasing respect any of the extensive exhibitions yet held throughout the country, which respect will be the positive completeness of every detail on the opening day. The serious drawback of most expositions has been that many things were in a chaotic state long after the time announced for opening, thus destroying the harmony of such things as were complete and being very annoying to visitors. The Ohio Exposition management

the Exposition with comfort and still have time for seeing many of the interesting places of the capital city.

The exposition will be open on Sunday, Sept. 1, and the admission will be twenty-five cents. This will enable thousands of laboring men to bring their families and view the greatness of Ohio's products. The amusement features will be closed and no unnecessary manual labor performed. There will be notable religious services during the afternoon when eminent divines will preach and a large choir and brass band render sacred music.

There are thousands in Columbus, as the State Board of Agriculture puts it, who will have opportunity to attend divine service by holding it on the grounds. These are the exhibitors, the concessioners and the many visitors remaining over Sunday.

The state board of agriculture has engaged John W. Decker, professor of dairying at O. S. U., to give demonstrations of milk testing at the exposition.

Ohio Plants in Oilcloth Trust.
New York, July 17.—Official announcement of the organization of the Standard Table Oilcloth company was made here. The company is capitalized at \$10,000,000 and will take over large plants in Buchanan, N. Y., Farsa, N. J., Newark, N. J., Akron and Youngstown, O., and Norristown, Pa.

Want Reciprocity With Canada.
New York, July 17.—At a meeting of the board of directors of the Merchants' association resolutions were adopted urging the president and congress to take immediate steps looking toward a reciprocal trade agreement between the United States and Canada.

NO CONFERENCE HELD

Magnates Affected by Strike Silent as Sphinxes.

KEEPING POSTED ON EVERY MOVE.

Intimated That Steel Corporation Officials Will Not Confer With the Men Until Amalgamated Recedes From Its Present Attitude—Progress of Various Labor Movements.

New York, July 17.—A representative of the highest interests in the United States Steel corporation authorized the statement that no conference concerning the steel strike had taken place and that none is likely to take place until the Amalgamated Association recedes from its present attitude. The additional statement was made that on this point there can be no compromise and that the heads of the constituent companies will not unionize such mills as have up to this time employed nonunion men.

J. P. Morgan would not be quoted at all about the strike nor would any of his partners. Mr. Schwab, president of the United States Steel corporation, had a long conference with Mr. Morgan, but would not be interviewed.

The telegraph department of the United States Steel corporation has direct wires running to Pittsburgh and the officials are kept informed of developments.

The report from Pittsburgh that there would be a conference which would result in some offer to the union men was not verified. Another rumor was that the steel corporation had arranged for a force of detectives for safeguarding the mills should an effort be made to resume business. The local superintendent of the agency refused to discuss the report.

The effect of the steel strike on building operations in this city depends on how long the trouble lasts. There is an unusually large amount of building going on but in many instances only the foundations have been laid, and steel will not be needed for some time. New York firms have little supply of steel. There is a possibility of the strike affecting the labor on the sub-way tunnel, according to John J. Palmes, chairman of the committee of the Central Federated union, which arbitrates differences between the contractors and the workmen.

Strikers in Cheerful Mood.

Pittsburg, July 17.—The second day of the strike closed with the Amalgamated officials in a satisfied mood and claiming to have made good every promise as to affairs. On the other hand the manufacturers would not say a word concerning the strike and refused to be quoted in any way. Repeated efforts to secure statements from President Corey of the American Sheet Steel company and General Manager I. W. Jenks of the hoop company met with the response that there was no change and nothing to be given out. The Amalgamated people claim nothing has been said to them of any plan for mediation or arbitration, and that they would continue to carry out their original program. But one tin mill, that at Monessen, and one sheet mill at Duncanville, remain at work. The fact that the National tube mill men (nonunion) received a substantial advance in wages caused discontent among the union men employed by the National Tube company at the Second avenue plant and at the Republic mill on the South Side. The men here think they are entitled to a similar increase. To consider the matter meetings were held on the South Side and it is said a demand will be made.

Chicago Strikers Make Gains.

Chicago, July 17.—Important victories were gained by members of the iron molders' union, eight firms signing the agreement. One of the eight concerns was the American Tin Can company, known as the "tin can trust." Out of the 1,000 molders who struck Monday over 300 of them have already returned to work at the advance demanded.

Six Brewery Yields.

Chicago, July 17.—Of the 52 breweries in Chicago, six have agreed to the demands of the striking stationary firemen and resumed operations. The remainder were idle. The men demand \$2 for an 8-hour day.

Wants to Succeed Woods.

Goshen, Ind., July 17.—Judge Francis E. Baker, son of Judge John H. Baker, formally announced his candidacy for the position of judge of the United States court of the Seventh circuit to succeed the late William Woods, whose demise occurred recently. The Elkhart County Bar association has appointed a committee of five to push his appointment. He is yet in his prime. His most formidable opponent will be Judge Walter Olds of Fort Wayne.

Corbin Arrives in Manila.

Manila, July 17.—The United States army transport Hancock has arrived here with Adjutant General Corbin and Surgeon General George M. Sternberg on board. The Hancock made the record trip from San Francisco in 21 days.

Result of a Fight.

New Albany, Ind., July 17.—Robert Wright was shot and killed by Benjamin Shadley, with whom he was having a fist fight. Wright claimed Shadley made improper remarks about Wright's daughter. Shadley is in jail.

Granger's Opponent Chosen.

Louisville, July 17.—James F. Grinstead defeated P. Booker Reed in the primary held to nominate a Republican candidate for mayor of Louisville. The Democrats nominated Charles F. Granger. The election is Nov. 5.

Advocate Puzzle Picture.

THE CHILDREN HEAR A SQUIRREL, BUT CANNOT SEE IT.

THE MERCURY STILL STANDS HIGH ENOUGH.

Weather Man's Work Keeping Thermometer Boiling—Nebraska and Kansas Want Rain.

Omaha, July 17.—Rev. F. Morton Smith, the noted English evangelist, who is conducting revival services in the cities of the west, led a congregation of several thousand people in prayers for a rain which will prevent business annihilation in the corn belt. An immense tent was erected in a small park located in the heart of the residence district, and in this were seated several hundreds of members of the congregations of the city. About the tent, the sidewalks of which were raised, was massed a crowd of citizens of all classes and all religious death occurred during the voyage.

Kansas Needs More Rain.

Topeka, July 17.—While rain has fallen in various parts of Kansas, the drought is not yet satiated and little benefit has been experienced by the crops. The rains have been local showers and their only effect has been to cool the air and freshen vegetation. Two places in the state report a temperature of 99, but the average has been about 97. Reports of blighted crops continue. Hopeful tone prevails in most of the reports, however. In the eastern division of the state crops are suffering more than in any other. The damage done in the central part is less severe, while in the western part conditions are favorable.

Local Showers in Nebraska.

Lincoln, Neb., July 17.—A fall of two degrees in temperature, in the absence of rain, brought but little relief here to heat sufferers. A part of the corn crop is severely damaged. The maximum temperature Tuesday was 102. George Knutsch, a prominent young man, died of sunstroke. There was a heavy rain at Hastings, Grand Island, Kenesaw and Harvard.

Cincinnati Scorching Hot.

Cincinnati, July 17.—Tuesday was a scorcher, the temperature hovering about 97 during the afternoon. The extreme humidity made the heat almost unendurable. Ten prostrations were reported, one of which is expected to prove fatal. Among those prostrated was ex-Police Judge Edward Schwab, not serious.

Identity of Heat Victim

New Orleans, July 17.—Papers found on one of the heat victims who was picked up at the Illinois Central depot indicate that he was W. W. Chamberlain of Pontiac, Mich. A letter, apparently from his brother in West Superior, addressed to him at Bluefields, Nicaragua, was among the papers.

London, July 17.—Cardinal Gibbons was entertained at dinner at the Brazilian legation and several distinguished people and diplomats were present. Cardinal Gibbons said: I hope to meet Cardinal Vaughan and spend several days with him. I shall devote the next few weeks to rest in England and Ireland. I had a delightful visit in Rome, where apparently miraculous health and strength of the pope cause constant surprise.

Condemned the Courts.

Milwaukee, July 17.—The national glass bottle-blowers' convention adopted a resolution condemning "arbitrary usurpation of power by the courts" in "unwarranted abuse of extraordinary writs of injunction in disputes between employer and employee which only result in the degradation of all that is best in American citizenship." The resolution calls upon all members to support the anti-injunction bill in congress.

American Prisoners Rescued.

Manilla, July 17.—Lieutenant Patrick A. Connolly of the Twenty-first regiment, who was sent with 20 men to recapture the Americans taken prisoner in Mindoro, attacked the town of Calapan, and a score of natives were killed and the town was partly burned before the place surrendered. Private Kidder of the Thirty-eighth regiment and Private Blake of the Twenty-eighth were recaptured.

AT A STANDSTILL MINISTERS AT PEKING.

They are Unable to End the International Deadlock—Li Keeps up a Correspondence.

Peking, July 17.—Prospect of bringing negotiations by the ministers of the powers to a close continues to grow darker, and the deadlock that has been on for a month is as firm as ever.

The ministers regard newspaper accusations of procrastination on their part as exceedingly unjust. They say the governments, and not the ministers, are responsible for deadlock.

It was at the meeting of July 11 that the ministers reached something in the nature of an agreement as to the indemnity. Almost immediately a radical difference developed between Great Britain and Russia as to the details of the plan of payment. All the ministers were in accord with the scheme early in June, subject to the approval of their governments, but Great Britain disapproved the arrangement on the ground that it did not adequately protect her commercial interests. The neutral ministers assert that either Great Britain or Russia must make material concessions before a conclusion is possible.

Li Hung Chang keeps sending strenuous requests to the ministers of the powers to present a complete plan. He represents that China is willing to accept any reasonable terms and is chiefly anxious to know definitely what the powers require, so that she may begin compliance with the terms.

Cincinnati Man Arrested.

Chicago, July 17.—Louis Kotte, son of the late George Kotte, the wealthy Cincinnati brewer, is under arrest here charged with the embezzlement of \$20,000 from the estate of his father. Kotte, who is 24 years old, was arrested by detectives at his boarding house, 148 Dearborn avenue. Kotte at first refused to discuss the case, but afterward stated that he had used the money playing the races in Cincinnati, and that he would be able to settle the matter if given an opportunity by his brothers and sisters, who caused his arrest. Kotte was made an administrator of his father's estate and for a time managed it well. He finally fell into the company of a number of young men who were playing the races, and it is said became a race-track follower.

Case Without a Precedent.

Decatur, Ill., July 17.—The city of Decatur compromised the \$15,000 suit of Mrs. Anna Hatfield for \$7,500, making about \$14,000 that will be paid because a number of boys had a private telegraph line across a street. Mrs. Hatfield's son was maimed for life and James Lee's son was killed while playing in Lee's yard. A storm broke the wire and it fell partly in the yard and on a trolley wire. The courts held that the city allowed the wire, a dangerous element, to remain in the streets, and was liable. The cases were of importance as being without precedent.

Poolrooms Raided.

New York, July 17.—The Society for the Prevention of Crime raided two alleged poolrooms up town and secured 23 prisoners and a truck full of paraphernalia. One of the places is said to have catered to a select set of people exclusively and to have been safe from interference for years. It was luxuriously fitted up. A fight was made to keep out the raiders but the resistance was soon overcome.

Rothschilds Drew the Prize.

Paris, July 17.—The number winning the prize of 100,000 francs in the recent lottery in aid of the Dramatic Artists' association was not presented until the Rothschilds informed M. Coquelin, president of the association, that they were the holders of the number and would donate the prize to the association.

Toilet Seriously Ill.

London, July 17.—M. Tscherkoff, who is Count Tolstoy's representative in Great Britain, has received a telegram asserting that the famous Russian is dangerously ill with fever and that his condition is serious.

ADDED TO THE LIST.

Official Reports Show Increase of Pensions Allowed.

DEATH ROLL ALSO GROWS LARGER.

Claims Filed by Soldiers in the War With Spain, Some of Which Were Rejected—Guanoat Disburses Orders by Returning to Port—Dispatches From the Nation's Capital.

Washington, July 17.—Reports have been received by Commissioner Evans of the pension bureau from all the pension agents of the country showing the entire pension business transacted for the fiscal year ending June 30. During the year the pension roll was increased to the extent of 4,435 names, making a total of 997,834. The deaths among pensioners numbered 38,082 in 1901, or 2,275 more than in 1900. The record shows that for the year 45,710 claims were filed on account of the Spanish-American war. Of these 7,000 were allowed and 7,059 were adjudicated and rejected.

On recommendation of General Randall, commanding the department of Alaska, that department will be consolidated with the department of the Columbia, with headquarters at Vancouver, Wn., in September.

Mr. Tracewell, the comptroller of the treasury, has decided that a clerk to a volunteer paymaster in the army in the war with Spain is not a volunteer officer of the general staff within the meaning of the act of May 2, 1900, granting extra pay to officers and enlisted men of the United States volunteers.

Surprise For Navy Department.

Washington, July 17.—The navy department has received a telegram from Lieutenant Commander Henry Minette, executive officer of the gunboat Concord, announcing the arrival of that vessel at Seattle. The announcement occasioned no little surprise, inasmuch as the Concord was recently ordered home from the Asiatic station and sent to Unalaska to assist in enforcing the liquor laws in that locality. Lieutenant Commander Minette's telegram said Commander Henry Knox of the Concord was ill, leaving it to be supposed this was the cause of the Concord's unexpected return to Seattle. A vessel's unexpected abandonment of her post constitutes a rather serious offense under ordinary circumstances, but pending further details of the occurrence judgment is suspended at the navy department.

Vacancy to Be Filled.

Washington, July 17.—To maintain the political balance of the American representation on The Hague arbitration the president regards it as essential to appoint a representative to fill the vacancy created by the death of former President Harrison. Difficulty is being experienced in finding a suitable person of national reputation. The supreme court will not be further drawn upon. The United States senate is barred as a field of selection and the indications are that the choice will fall on some distinguished member of the state judiciary.

Awaiting Allen's Coming.

Washington, July 17.—Secretary Hay has received by mail an official report from Governor Allen of Porto Rico inclosing the resolution adopted by the Porto Rican legislature providing for free trade between the United States and Porto Rico after July 25. Promptly upon Mr. Allen's arrival in this country a proclamation will be framed to give effect to this resolution. It is said the document will be purely formal in terms, simply reciting the proper section of the Foraker act and declaring free trade.

Treasury Statement.

Washington, July 17.—Statement of the treasury balances in the general fund, exclusive of \$150,000,000 gold reserve in the division of redemption: Available cash balances, \$170,869,211; gold, \$100,634,047; silver, \$25,270,159; United States notes, \$141,197,731; treasury notes 1890, \$141,197,731; national bank notes, \$3,014,283; deposits in national banks, \$103,089,229.

Berth For Mosby.

Washington, July 17.—Colonel John S. Mosby, a Confederate leader during the civil war, has been appointed a special agent of the federal land office. He claims his residence is California. He has been assigned to duty in Nebraska.

Jap Soldier at Washington.

Washington, July 17.—Lieutenant Colonel Watanabe, the first representative of the Japanese army to be accredited to Washington as military attaché, arrived here and reported to the Japanese legation.

Struck Oil in Missouri.

Merwin, Mo., July 17.—A big flow of oil was struck here. This is the third hole sunk. Indications are that it will produce 15 barrels per day. The strike was made at a depth of about 290 feet.

Railway Record Broken.

Chicago, July 17.—A special train of five cars was hauled over the Pennsylvania road from Pittsburgh to Chicago in 19 hours and 59 minutes. This breaks all passenger train records between the two cities.

Farmers Killed by Lightning.

Columbia, S. C., July 17.—Henry Davenport and Elvyn Harvey, two well known farmers living near Williamson, S. C., were killed by lightning. Both leave large families.

Grau's New Tenor.

Berlin, July 17.—Mr. Grau has engaged Herr De March, the tenor, for the next opera season in the United States.

"Down Town" Improvements.

Improvements are going on all around us

both in the city and outside. Newark is

booming and every body has faith in its

future. One of the "down town" improve-

ments is on Hoover Street where Gil O.

Daugherty has a number of lots centrally

located which he is selling at suburban prices

He is laying water mains and building an

eight inch sewer for the benefit of his lots,

several of these lots have been sold and

three fine residences with all modern conven-

iences are in course of erection. Other resi-

dences soon to begin. These lots are "down

Careful Prescription Work

Have you ever thought what that means? Suppose your tailor would make a suit from shoddy cloth. The clothes wouldn't hang or wear well even though cut correctly. So in prescriptions good service means more than being careful about weights and measures. It means carefulness long before your prescription is brought to us. It means that we have been careful as to purity when buying chemicals, and have exercised care in making all those liquids medicines which we keep ready for use on our shelves and in our closets. We are careful in every step of prescription work.

HAY RIDE

Enjoyed by a Granville Party—Were Guests on Tuesday Night of Mrs. Dixon.

Granville, O., July 17.—Mrs. Dixon gave a haywagon party to a number of her friends Tuesday evening in honor of Miss Bangs of Boston. The gay party met at the home of Mrs. Dixon at 4 o'clock, and after climbing up on a haywagon loaded with fragrant hay, the start was made, and they drove out to the home of Mr. Russell Moore, where they remained until ten o'clock. Mrs. Moore served an elegant six o'clock dinner, which was greatly enjoyed by all. Those who were present were, Mrs. Dixon, Miss Bangs, Prof. Williams and wife, Prof. Cole and wife, Prof. Chamberlin and wife, Mrs. Prof. McKibben, Miss Minnie Jones, Mrs. H. Delano, Judge John M. Swartz, Miss Kate Humphrey, Miss Sheldon, Mrs. Dr. Purinton, Mr. and Mrs. Burton Case, Prof. Thresher, and Wallace Tuttle.

Mrs. Wolcott, wife of Lieut. A. S. Wolcott of the Sixth regiment, and daughter, Miss Iris, and Miss Riddell of Napoleon, are the guests of Mr. and Mrs. John A. Chilcote, of North Third street.

At Buckeye Lake.

The directors of the Homestead Building and Savings company are holding their outing at Buckeye Lake today. The men went out to the Rader camp, located on the Swartz farm, where they are having the time of their lives. They were accompanied by Joseph Kuster, Sr., who is the caterer, and the very fact that he is along, is a guarantee that the boys will not suffer. In the party were Hon. William E. Miller, Messrs. E. J. Maurath, William J. Saleide, C. W. Bourner, William Tracy, Charles Hoffner, George P. Webb, F. J. Bader, A. R. Schaller. This includes all the directors with the exception of Mr. J. F. Lingafelter, who is engaged on his semi-annual report for the Homestead Building Association, which he expects to have ready by Saturday.

NEW RECEIPT—The postoffice department has provided a receipt for use by the rural carriers to purchase of a postal money order. The receipts are found in book form and the carrier when receiving the money from patrons of the service will issue a receipt therefor. The order may then be returned to the remitter or mailed by the carrier if an addressed envelope is furnished for such purpose. Formerly the rural carriers issued no receipts for money orders, but simply acted as the agent of the remitter.

Indianapolis, July 17.—Rain last night saved the corn crop in Indiana.

CHILDREN

RETURN FROM HAPPY OUTING AT JOHNSTOWN.

Outings Made Possible Through Mr. McMillen's Generosity and the Epworth League's Work.

(Ohio State Journal.)

Twenty-seven children, healthy, happy and sunburned from a week's romp in the country, returned to Columbus on Tuesday. Ten of them came from Johnstown early Tuesday and the rest from Unionville in the afternoon.

One glance at their glad faces was enough to convince anybody that the work of the officers of the Epworth leagues of this city, through whose efforts, coupled with the generosity of Emerson McMillin of New York, these outings were arranged, is well worth while. Mr. McMillin has authorized the officers of the leagues to draw upon him to whatever extent that may be necessary, and it is their duty to select the children, to provide them proper clothing and to find temporary homes for them. The officers are enthusiastic in the work and there has been no lack of country people who are willing to entertain such children as may be sent.

The vice president of the city Epworth leagues met at the Y. M. C. A. building last evening to discuss the fresh air work. A poor mother and her two children leave this morning for Reynoldsburg, where they will spend two weeks. The good people of Reynoldsburg have agreed to entertain four visitors throughout the summer. Fifty children will be sent to North Columbus homes on Saturday to spend a week. Twenty-five will go to Sedalia on July 24, and 37 to Sheppard's Station one week later. Nineteen go to Powell next Friday, and the same number to Alton on August 1. Two mothers and 23 children will spend the week beginning July 23 at Basil, and two children are Ashville for the entire summer. Other excursions will be arranged as the season advances.

Mr. McMillin does not consider his duty done after he has provided for the children's expenses. He retains his interest in them. Writing to an officer of the league a few days ago, he said: "During the past week of awful heat I have often thought of the little tots who ought to be out in the country."

Band Concert and Dress Parade.

During the encampment of the Sixth Regiment O. N. G., there will be a band concert and dress parade every evening. Special car will leave square for the camp ground every 30 minutes during day and night.
